

## **Road Closures for Filming of Quincy/ The Instigators starring Matt Damon and Casey Affleck.**

### **Saturday April 1**

Saturday will be exciting in the SE corner of the Lower Charles River Basin as filming will take place near Charles St and the base of the Longfellow bridge. Multiple drones will be in the air space so we are requesting all teams to not film from their own drone this weekend.

- Storrow Drive westbound will be closed to all vehicular traffic starting at 5 am. Plan your approach to Cambridge carefully as teams coming from I-93 north may wish to travel northbound on Mass Ave after exiting the Distressway at Exit 16.
  - Teams traveling on Rte 1 southbound should exit in Charlestown and travel directly onto Memorial Drive Westbound.
  - Teams traveling south on I-93 should exit before Sullivan Square and travel south on Rte 28 to Mem Drive.
- 

### **Sunday April 2**

- Mass Ave Bridge will be closed in both directions starting at 6 am until 1130
- Memorial Drive will close from 1130am to 430pm but driving and parking on the road in both directions is available before that time. Early, supervised escapes will be available, too. Please speak with a Production Assistant before departing.

Sunday morning will have chase scenes filmed on the Mass Ave Bridge. Helicopters will be involved and the film crew will be using multiple drones simultaneously and they will be staging from the west roof of the Sailing Pavilion. Spectators will be confined to the east roof deck areas and competitors are forbidden to use their own drones throughout this weekend. On Sunday afternoon, high speed chase

scenes along with helicopters will be traveling back and forth in front of the Sailing Pavilion along Memorial Drive. It will be very exciting!

**Please forward this note to all competitors so they can advise friends and family who might be stopping by the pavilion to catch some action.**
